New York, Feb. 8th, 1848.

FRIEND JACKSON:—

We have had the pleasure of enjoying the company of old winter, for the last two days. He was rather cool and blustering and looked rather squally at times. He became disgusted, and this morning has disappeared, and no traces can be found of his whereabouts. Our streets are very dusty, and in consequence of the high winds of the last few days, a promenade in Broadway was rendered rather an unpleasant undertaking; but notwithstanding this, the ladies and "blooms" were quite numerous, and tearful eyes were to be met with in abundance. The "blooms" were compelled to stop at some one of the splendid saloons with which this street abounds, and inhale a reviving "crater" or "eye opener," thinking it would enable them the better to withstand the assaults of old Boreas; while the ladies rush to Stewart's splendid "palace of extravagance," where the rich and elegant stock of goods there collected, serves to relieve their visual organs of the dust, and at the same time concoct a scheme to relieve their husbands or papas of some of the "dust," which they may have had the luck to gain on "Change," during the day. Some "love of a dress" or splendid shawl that they must have to make a proper appearance at the Opera with, has had the desired effect. By the way, speaking of Opera; the Italian Opera having become so fashionable, it will be the means of reforming the customs of the "upper ten" materially. Instead of attending balls, soirées and routs, and keeping late hours, they are now obliged to attend the Opera, and go home early, comparatively. But in order not to neglect soirées, &c., entirely, they have hit upon a plan to attend both. They have their reunions in the afternoon, which break up in season to dress for the Opera in the evening, so that between them all they manage to keep along with old Boreas. This Italian Opera, I intend, understand enough of Italian to know when and where to applaud, while those who do not sometimes applaud some particular noisy demonstration of their favorite prima donna, while the knowing ones look on in silent contempt. This causes some laughable scenes sometimes, and keeps up a continual round of applause; and those whose extent of knowledge of Italian is "bravissimo," use that word to death. The prima donnas have each their champions and supporters. American cognoscenti supporting the Truffi; the Italians the Barrilli, and the French the Path. Bisacciani, who comes here endorsed by the elite of the "Athens of America," seems unable to attach to herself any very great party. Of the tenors, Beneditti seems, by mutual consent, to have undisputed title to the first tenor slip.

Gen. Quitman was received most enthusiastically on his arrival in New York. He was escorted to the Park by a large number of the officers of the New York State Militia, all in full uniform, and was addressed by Major Brady, who tendered him the hospitalities of the city. The General replied in a neat and appropriate speech, thanking him, and expressing himself much gratified at his reception, from citizens of his native state. He has been the lion for a week now. Frog on some one else.

Mr. Pearce, Commissioner Trist has not yet returned, and no tidings can be had of his whereabouts. Some think he is negotiating peace on his own hook, thus stealing some of the reserved thunder of the administration. Mr. Polk should call in the aid of some clairvoyant to find out where he is, and what he is about.

The French steamer Missouri sailed Sunday morning, with only seven passengers and a very light freight. The steamers of this line are all large staunch built vessels, and have good engines, and should be able to make some kind of average time

across the Atlantic, but some how they are not successful, the public have no confidence in them, and will not patronize them; they have been unfortunate from the first. The line I believe is suspended until next summer, for the purpose of making some alterations; it is to be hoped for the better.

Judge Hurlburt has denied the motion for bail in the case of Madame Restell, and consequently she was remanded to the custody of the sheriff of New York.

Yours &c. Cosmopolite.

The eight and last Lecture of the course, before the Association of Mechanics and Manufacturers, is to be delivered this evening at Armory Hall, by the Rev. Dr. Choules. This is the concluding lecture of Dr. Choules' two on the "Life and Times of Cromwell," and it cannot fail of being deeply interesting, and of attracting a large audience.

Prof. Graves delivers another free Lecture at Franklin Hall this evening, at the close of which a public examination of heads will be had. A collection will be taken up to defray the necessary expenses.

POSTAGE REFORM.—The citizens of Boston have taken up the subject of postage reform in right good earnest. On Thursday evening they held a meeting, and appointed a committee of twenty-five to organize a Postage Reform League. The resolutions, which were adopted, recommend a reduction of the present charge for postage to the following rates, namely: Two cents on each half-ounce letter, if pre-paid, and double postage if not pre-paid; one cent on newspapers, and a like rate of postage on other printed matter; the abolition of the franking privilege and the establishment of a free letter delivery in all populous localities throughout the country.

GREAT FIRE AT TORONTO, CANADA.—A great fire occurred at Toronto, Canada, on the 1st of February, which destroyed the whole block (except the south-eastern angle) of buildings bounded on the north by Colborne, on the west by Church, and on the South by Colborne and Front streets. Twenty three houses were destroyed, of which sixteen or seventeen were taverns.

Where's Santa Anna? is a question repeatedly asked of late, and some interest attaches to it. A letter from Vera Cruz, with *alta credito*, that he was at that date at Orizaba, making all kinds of preparations for giving Col. Bankhead a warm reception in the way of "grape" when he makes his appearance there.

Madame C. Amy is driving a "mashing business" at her room at the United States Hotel. It is said that she tells those who visit her, all that they ever knew or ever will know, and it don't take her but a very few moments!! Strange, isn't it?

DECLINE OF HATEFULNESS.—Rev. Dr. Scudder, after laboring in India, a quarter of a century, says: "It is a pleasing circumstance that the abominable rites of the heathens are gradually coming to an end in different parts of this extensive country." The governor general of India has lately published a proclamation by the Gwalior Durbar, prohibiting the burning of widows within the territories of the King of Scindiah. The priests made inquiries of them respecting suttee, and they said that the custom was iniquitous, and that this custom was prohibited by the Jeypoor government. Female infanticide is also forbidden in Jeypoor.

A DANGEROUS EXPERIMENT.—A young man named Grimley is now confined in the hospital at Philadelphia, with a severe injury of the head, which he received from a woman whom he interfered to save from a terrible beating by her husband. She cautioned him to mind his own business.

It is said that the Health Office of New York, for 1847, amounts to \$100,000.

Bays, you should be very careful when sliding on sleds in the streets, for a little boy was run over by a wagon on Tuesday evening.

The population of New York is now estimated at nearly 570,000. Philadelphia and suburbs, 350,000; Cincinnati, 100,000; New Orleans, 70,000; Buffalo, 20,000.

Curiosities.—Our Rio Grande correspondent "Toby," has a large collection of "valuable curiosities," which he has, undoubtedly, spent much time in collecting. He says:

"I see in a copy of the News recently received, that our friend Rider is collecting Curiosities for his Museum, and am only sorry I was not aware of it before, as I have a small stock on hand which he is welcome to. The following comprises a list of a portion of them:

A lock of the Wool that Gen. Taylor pulled over the eyes of the Mexicans at Buena Vista.

A daguerrotype likeness of a doctor that swallowed his own prescription.

A joint from the flattering tale hope told.

A piece of the screw that was loose.

The likeness of the man that struck Billy Patterson.

A string from the harp that hung in Juan's Hall.

A pattern of Lord Byron's shirt collar.

The tails that were left of the Kilkenny cat.

One of the stars the boy saw when learning to skate.

A striking likeness of the learned pig.

A lock of the hair from the Mountain head.

The legacy that Santa Anna left Gen. Scott.

A bottle of the snuff, the boy was "up to."

A bottle of the celebrated Danbury Pomatum (composed of goose grease and pepper-mint).

The pair of boots that "went it."

A sample of the Mexican "hard times" cloth of which Taylor made breeches.

The other half of the piece sent Governor Marcy to repair his breeches.

A (tin) measure, one of Polk's last.

The "sharp stick" that Gen. Taylor used when he was after Ampudia.

The *stumpy hat*, that never had a nap.

An umbrella that was returned.

The dagger that Macbeth thought he saw.

A "sweet smile" from a Mexican Senorita—(bottled.)

The Card that has ever *Ben.* a trump.

These curiosities are subject to Mr. Rider's order, and will be forwarded, on application to the agents of the "Santa Anna" last line.

HOG CROP HARVESTED.—The Cincinnati Commercial, of Thursday last, says:—"The last lot of hogs for the present season, will be slaughtered to day. The number has already reached 400,000."

NOT ABANDONED YET.—The workmen are still employed at Caldwell's Landing, in digging, delving and diving for Capt. Kid's treasure!

THE WEATHER.—Already in this our Southern latitude, do the harbingers of mild and balmy spring begin to peer forth. The bud of leaflet and the blossom of flower show symptoms of resurrection and of the reanimation of nature. The withered turf in park and paddock, is casting off its ashy coloring and assuming nature's favorite garb of green. Birds no longer sit silently charlish in bush and tree-bough, but gaily chirp their morning matins—and into every living thing the revivifying breath of the season seems to be infused.—N. O. Delta Jan 29th.

MARRYING A WIFE'S SISTER.—The religious world has been thrown quite into a state of excitement by the question, "May a man marry his wife's sister?" and grave deliberations have been had upon it among bishops and presbyters. A lady proposes the last reference of the question, which is to the sister herself. A fair and just tribunal.

The Washington Whig says: "It is ascertained beyond a doubt that Gen. Scott has been recalled at his own request, and he will return immediately after the adjournment of the Court of Inquiry, which has been changed from Perote to Puebla."

Some one inquires whether a bedstead is a bedstead when it is a *little buggy*? A Yankee answers this, by asking whether a woman is a woman when she is a *little sulky*.

Thirtieth Congress--First Session.

SENATE.—Feb 7.—Mr Douglass from the committee on Territories, reported a bill to establish a territorial government in Oregon.

The bill extending the provisions of the act granting half pay to the widows of volunteer militia dying of wounds received in battle, and to the widows of soldiers of the regular army, was taken up and passed.

A resolution was submitted calling for Mr Trist's instructions, and his views in relation to the treaty submitted by the Mexican commissioners, which was laid over.

The Senate then resumed the consideration of the Ten Regiment Bill.

A resolution for a vote of thanks to General Taylor was taken up.

House.—The resolutions calling for the correspondence of General Taylor from the 1st to the 27th of February, 1847 were passed.

The joint resolution of the Legislature of New York, voting thanks to General Scott and the army in Mexico, and urging the presentation of a gold medal to the former, was presented which was passed, by a vote of 107 to 1.

Mr Houston of Alabama, moved to amend, so as to include all other Generals engaged in active service from the commencement of the war.

Joint resolutions were presented by Mr Stephens of Georgia, complimenting General Taylor, and the army under him, for the victory of Buena Vista, and directing the presentation of a gold medal to General Taylor were read three times and passed.—The vote on their passage was, yeas 181, nays 1.

Adjourned.

The Rev. Walter T. Colquitt, one of the U. S. Senators from Georgia, has resigned his seat in that body.

It is not often that we find amongst the Medical Faculty sufficient candor to accord any merit whatever to "Patent Medicines" as it condescends with their interest so to do; but below we give an exception.

Opinion of a Regular Physician.

Exeter, Me. Sept. 30, 1845.

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs, for two years past and many bottles, to my knowledge have been used by my patients, all with beneficial results. In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.

E. Baylen, Physician at Exeter Corner, None genuine, unless signed I. BUTTS on the wrapper.

CUTION.—The public are particularly cautioned against being imposed upon by persons that are selling preparations of Sarsaparilla which they pretend have the same qualities as these Bitters have been offered to the public, there have been no less than four different imitations got up by as many different individuals, and sold for the genuine. The good qualities of Brown's Extract of Sarsaparilla and Tomatoes, or Sarsaparilla and Tomato Bitters, is already known and appreciated by physicians and the public—particularly by those who have used them for Impurities of the Blood, bad Humors, Scrofulous diseases, Bilious affections, Costiveness, loss of appetite, &c. There has been no medicine sold that has given such general satisfaction. There cannot be the least doubt but this compound is the best alterative now in use. We have abundance of proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given over as incurable. The above compound is not merely a common extract of Sarsaparilla, but a very strong extract of the best Spanish Sarsaparilla, extracted by an entirely new apparatus, made expressly for the proprietor, and used by no other person in this country. This apparatus ensures the whole medicinal qualities of this most valuable root.

The Lady's Fash in Radway's Soap. I knew my face is Tanned and Freckled, With Pimples, and with Blotches speckled Sunburn and other annoying Spots, With Scoury, Morpue and Salt Rheum, Upon my cuticle assumes To reign with full authority.— But all my friends, I'll cure them soon, With a soap of a superior quality. Radway's Chinese Medication— Is the name of this precious Soap: I really cure all hereinstated— Either Pimples, Blotches, Tan or Spots. The lady said she spoke the truth, She found the Soap the friend of youth, And beauty now a-comes its place, Upon the clear, transparent face, All ye who have upon your skin, Pimples or Blotches, Pustules or Tan, On the cheek, the nose, the face or hands, Or if perchance upon your arms— And would possess angelic charms, Fear not to rest your faith and hope In Radway's Medication Soap.

A secret which baffles the ingenuity of all who have attempted to analyze its properties. *Radway's Chinese Medication Soap.* The extraordinary effects of this delicious emollient is truly astonishing, for no sooner is Radway's Soap applied to the surface, than tan, sunburn, pimples, blotches, freckles and other excrescences speedily disappear. It softens, soothes, heals and sweetens the skin, and imparts beauty to the complexion of all who use it. Sold for 2s. for large, and 1s. for small, at 2 Courtland st. N. Y. R. J. TAYLOR, Agent.

To enable Mankind to Die of Old Age without Disease.—The public may not be aware that the Rev. B. Hibbard's Vegetable Pills are the very

best Family Medicine extant; perfectly reliable in every emergency. No one can afford to neglect the moment when they or their children may be attacked. Disease comes like a thief in the night, and in times of peril, anxiety and danger, it is a relief to the mind to have at hand a remedy so certain, prompt, and efficient in warding off as well as curing disease. Ship Fever, Typhus Fever, Congestive and Bilious Diseases are rife throughout the land. To travellers, emigrants, soldiers, and families, we say neglect not to provide yourself with so potent a possessor of the blood; so safe, mild, and universal a remedy as these sovereign Vegetable Pills. Remember the name of Rev. B. Hibbard is on the label of each box. All other are spurious. T. R. Hibbard, M. D., 95 John-st., New York, proprietor. See advertisement in Mercantile.

One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the various processes of animals. For this we are indebted chiefly to the German and French chemists. We have now a clear understanding of the different action of aliments, poisons, and remedial agents, and the long derided theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth. The great object, therefore, is to ascertain what remedy will act most directly upon the constituents of the blood when in the act of combining. Experience, observation, and a cloud of witnesses establish the fact that SAND'S SASSAPARILLA, is at the very head of this class. Cures scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this unobscured purifier of blood—for the blood is the channel through which disease finds its way to the various organs of the body.

UNITED STATES HOTEL.

On Pearl, Fulton and Water Sts., New York.

BY H. JOHNSON.

THIS is one of the largest and best kept Hotels in the city of New York. Board \$1.50 per day. Its location is particularly convenient for business men, and Mr. JOHNSON, the popular and gentlemanly landlord, makes the comfort of his guests constant study.

Cold Feet are an evidence that the blood is encumbered with morbid humors, which not only render the circulation sluggish and unequal, but prevent a proper supply of the vital fluid to the extremities. Hence coldness of the hands and feet, accompanied with headache, giddiness, and many other unpleasant complaints.

Wiggin's Indian Vegetable Pills are one of the best preventives in the world against Cold Feet. They cause they not only cleanse the blood from the impurities which are the cause, but they impart an energy to the circulation which carries it with vigor to every part of the system.

Beware of SUGAR COATED COUNTERFEITS.—Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.

The genuine are for sale by G. C. G. HAZARD, No. 59 Thames-st., Sole Agent for Newport, and by Nathan Dennis, Portsmouth; Seabury & May, Tiverton Bridge; Arnold Smith, Tiverton; Four Corners; H. F.
